MEMORANDUM FOR: Deputy Director for Plans
THROUGH: Chief, CI Staff
SUBJECT: Proposed Transmittal of
KGB Training Manual

1. Attached is a translation of a KGB training manual entitled "The Recruitment of Americans in the United States and Abroad." Although the document is being disseminated to the intelligence community by [REDACTED] memorandum, I believe the unique nature of the document and its direct pertinence to U. S. security warrants calling it to the personal attention of the USIB representatives as well as members of the PFIAB. 25X1A2g

5X1X6 2. The source of this document was Yuriy [REDACTED] He obtained 25X1X6 access to it as part of his training for a mission to recruit an American. The document was given very restricted dissemination when first received [REDACTED] several years ago. With the termination of LOGINOV, it is now possible to give the document the broad dissemination it so clearly warrants. 25X1X6

3. If you concur that the USIB members and PFIAB should receive a special dissemination, I will have the necessary letters of transmittal prepared for the DCI's signature.
